WHAT WE DO

Six ways we turn ideas into products

01

Websites

Landing pages, business and corporate sites

02

E-commerce

Online stores with payments and orders

03

Web platforms

School portals, church systems, custom apps

04

Mobile apps

Android and iOS, built and published

05

Design & branding

UI/UX, logos and brand identity

06

Care & growth

Maintenance plans and SEO

OUR WORK

Real products, live in real hands

From delivery apps on Google Play to AI tools for farmers — we design, build and launch.

Ryaniva

AgriSync AI

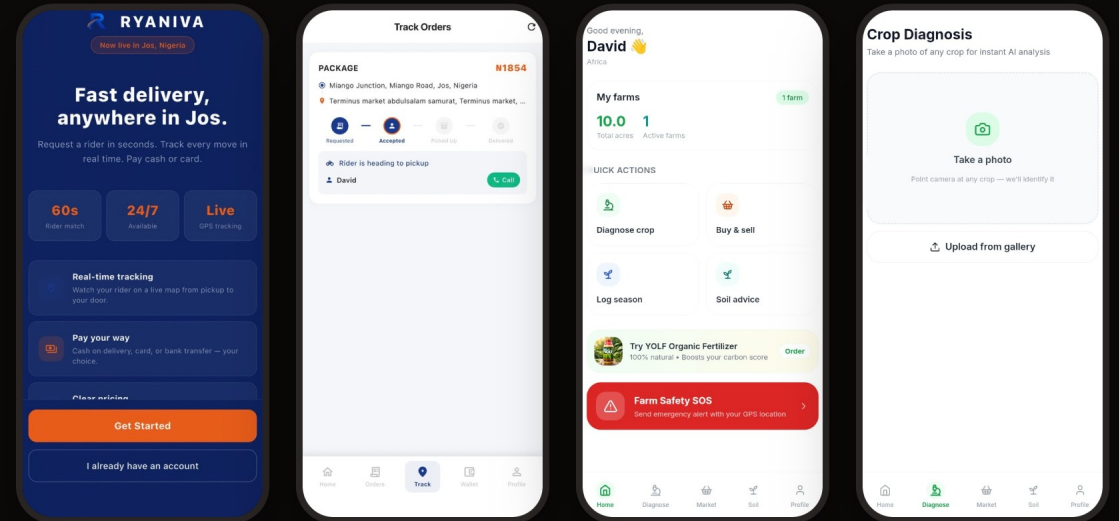

Urban Rides

LevyTrack

Bethstream Solutions

Mbegu Flavours

Payment gateway integration	##50K
Live chat integration	##30K
Multilingual website	from ##100K
AI chatbot integration	from ##150K
Domain registration & hosting	Client cost

HOW WE WORK

From first call to launch day

01

Discover

We agree goals, scope and price

02

Design

You approve screens before code

03

Build

Weekly progress and test links

04

Launch

Domain, hosting and store release

05

Support

Fixes, updates and growth

PAYMENT TERMS

Simple, two-step payments

70%

Deposit to start

Work begins once the deposit and your content arrive

30%

Before launch

Paid once you approve the finished product

Features outside the agreed scope are quoted separately. Prices are starting ranges; your final quote depends on your requirements.
